## Mini bar

Thermoelectric hotel mini bar "Retro" is an innovative product which combines the retro design with technology.

Bright colorways, soft rounded edges, silver chrome finishes ... it's all so dreamy!

It uses the peltier effect to generate cold and make energy consumption low. Low maintenance cost, no noise cooling system, removable shelving for easy cleaning, non adjustable temperature are some of the top features of this evolutionary product.

— Available in 2 colors  
(white / red)
